HUNGARIAN INVOLVEMENT IN EGYPTIAN POLITICS:  
POLICE CONTROL OF LAGGING INDUSTRIAL PLANTS

SAYS HUNGARIAN LEGATION AT CAIRO INVOLVED IN UPRISING -- Bollettino Danubiano,  
 30 Jun 52

A correspondent reports that two members of the Hungarian legation at Cairo were involved in the bloody incidents in Egypt and were making preparations for a revolution indirectly, receiving material support in this work from the Communist countries.

One of these Hungarian agents in Egypt was Latzkovics [fnu], legation secretary, who had to leave Cairo suddenly because of his activities. He is now at the Hungarian consulate general at Istanbul.

The other agent, Kallos [fnu], was formerly commercial attache at the Hungarian legation in Cairo. He sought refuge in India and subsequently returned to Budapest.

DEPORTEES PAY FOR THEIR FOOD AND QUARTERS IN CONCENTRATION CAMPS -- Bollettino Danubiano, 30 Jun 52

It is reliably reported that the Hungarian government, besides seizing all personal and real property of thousands of Hungarian citizens, irrespective of their social status, recently issued a decree compelling all deportees to pay for their food and quarters in concentration camps. Expenses for the current year vary from 100 to 200 forints per month, according to local conditions. This decree also ordered back payments for living quarters since July 1951 in a total sum of 600 forints per person.

Those who do not pay their debts in the time limit set by the local authorities will have their clothing and other properties confiscated. The new decree has been confirmed by various sources.

POLITICAL POLICE TAKE OVER PLANTS -- Bollettino Danubiano, 30 Jun 52

According to well-informed sources, the Hungarian government and the Soviet military authorities have placed many factories under control of and occupation by the political police and Communist brigades because of sabotage and industrial accidents.

The following conditions were found in these factories: lack of discipline, abuses on the part of the management, nonfulfillment of production plans, and poor quality of products. So far, the following plants have been placed under surveillance: the Lang Gepgyar (Lang Machine Factory), where the chief engineer, Mador Erdosi, was arrested because he had paid the workers overtime; the Ganz Vagou-es Gepgyar (Ganz Railroad Car and Machine Factory); the Gheorghiu-Dej Hajoggyar (Gheorghiu Dej Shipyards), where output has been largely defective during the last 3 months; the Diosgyori Vas-es Acelmuevek (Diosgyor Iron and Steel Works); and the Voros Csillag Traktorgyar (Red Star Tractor Factory), where the workers' morale and discipline was upset by "reactionary" workers and cooperation is absent among high-ranking employees, Stakhanovites, management, and party officials.

Bende (fnu), party representative, and Director Krassalkovics (fnu) of the Voros Csillag Traktorgyar have been suspended from their duties and placed under investigation, because they had increased production quotas and also signed pledges in the name of workers without notifying them.

At the Kanyu Vasszerkezetek Gyara (Light Structural Steel Factory), Jozsef Csernacky, the manager, and Endre Kovacs, the administrator, were brought to trial accused of neglecting labor discipline and showing excessive generosity to workers with respect to their pay.
